KEY FEEDBACK: The money model needs a price and a recurring frequency.

PITCH OUTLINE

PROBLEM

Founders waste hours crafting vague pitches that investors reject instantly.

SOLUTION

PitchPal automatically validates startup pitch answers and pushes back with targeted coaching to sharpen them.

CUSTOMER

Students aged 18 to 24 hate wasting hours preparing vague pitches and feel stuck without expert feedback.

BUSINESS MODEL

We charge 49 rupees monthly for students and 99 rupees yearly for teams who pay per subscription.

COMPETITION

ChatGPT, Claude and Grammarly give generic advice, but PitchPal uniquely validates structure step by step.

TEAM

I have five years of experience building fintech products and my unfair advantage is direct access to bank data.

THE ASK

Seeking investment to accelerate growth and capture market share.
